

## 100-SERIES

When painting with 100-series, you can paint the items more closely and more accurately than with a spray gun or conventional spray can. Due to fine spray pattern the paint spreads less on the environment. 100-series pigments, additives, solvents, and the packaging has been developed exclusively for spray painting, without compromise. An alkyd paint.

Many professionals have discovered that the Maston 100-series provide comparable results to professional paint guns and are more comfortable and faster in use, thanks to its unique nozzle construction and high-quality.
