PREFILL STANDARD

Danger

PREFILL 1K

Prefill female 1K filled with propellant and solvents only. Use of specific filling machine is required in filling the can with paint. The features of the final product depend on the paint filled in the can and are at final fillers liability.

PREFILL 1K 400ML FEMALE

ART NR 300007 BAR CODE 6412490005030

PREFILL 2K

Prefill female 2K filled with propellant, solvents, additives and converters. Specific compounds convert 2K topcoat paints as 1K topcoat, an air-drying paint. This makes it possible to fill 2K paint in the can by the final filler. Use of specific filling machine is required in filling the can with paint. The features of the final product depend on the paint filled in the can and are at final fillers liability.

PREFILL 2K 400ML FEMALE

ART NR 300008 BAR CODE 6412490005047

PREFILL WATERBASED

Prefill female waterbased filled with propellant, solvents and additives. Use of specific filling machine is required in filling the can with paint. The features of the final product depend on the paint filled in the can and are at final fillers liability.
