

PLASTIC PRIMER

COVERAGE **STRONG BOND** **FLEXIBLE** **QUICK DRYING**

MATERIAL

MASTON PLASTIC PRIMER is a transparent primer especially developed to be used on different plastics before painting, excluding very soft plastics such as polystyrene. The plastic primer works as a “chemical sandpaper” and creates an invisible, microscopic structure on plastic surfaces. The structure and the bonding additives promote the adhesion of the paint on plastics. The primed surface can be overpainted with any primer or paint. We recommend testing the suitability of the primer first on an invisible area.

BINDER:
Plastic Primer, Solvent based

STORAGE STABILITY: 60 months

EU VOC-CONTENT: VOC 650,43 g/L

RECOAT: always, 5 minutes in between layers

SIZE: 400 ml

SALES QTY: 6 pcs

HARDNESS

EU LANGUAGES: EN, DE, CZ, ES, FR, HU, IT, NL, PL, PT, RO, SK

ART NR 400522-EU **BAR CODE** 6412490034719

OTHER: EN, FI, SE, BG, DK, EE, GR, LT, LV, NO, RU, TR

ART NR 400522 **BAR CODE** 6412494005227

DANGER

Information valid at 20°C, relative air humidity 20% - 70%
